

STAINLESS STEEL CLEANER – highly effective cleaning agent with an oil effect, designed for cleaning, polishing, and preserving chrome, copper, and all other stainless steel surfaces.

INSTRUCTIONS FOR USE:

Spray the product directly onto the soiled surface using a spray bottle or apply it with a dry cloth. Gently wipe the stainless steel surface to remove dirt and grease. Allow hot surfaces to cool before application. For optimal results, polish the surface with a clean, dry cloth.

Composition according to (EC) No. 648/2004:

- 15 % or over, but less than 30 % aliphatic hydrocarbons.

RECOMMENDED USE:

Apply directly to the soiled areas in the required amount. Ready to use, do not dilute.

STORAGE:

Store at a temperature of 5–30 °C. Protect from direct sunlight. Use by the date indicated on the package.
